

ADRIAN CHU

Artificial Intelligence Specialist

@ adrianchu0119@gmail.com 📍 Delaware, US

SUMMARY

AI Engineer with strong experience in software development, machine learning, and artificial intelligence systems. Skilled in designing, training, and deploying machine learning models, building AI-powered applications, and developing scalable software solutions. Experienced with Python, deep learning frameworks, large language models (LLMs), computer vision, cloud platforms, and AI automation. Passionate about creating reliable AI products that solve real-world problems.

EXPERIENCE

AI Engineer

Fortunes Tech

📅 07/2023 - Present 📍 Liverpool, UK

- Developed and deployed machine learning models using Python and deep learning frameworks.
- Built AI-powered applications using LLMs, embeddings, vector databases, and retrieval systems.
- Designed automated data pipelines for training, testing, and model evaluation.
- Improved model accuracy and performance through feature engineering and optimization.
- Created scalable APIs for integrating AI models into production software.
- Collaborated with software engineers and data scientists to deliver AI solutions.

Software Developer

Pangramia

📅 2019 - 06/2023 📍 HongKong

- Designed and developed software applications using modern programming practices.
- Built backend services, APIs, and database-driven applications.
- Improved application performance through code optimization and system design.
- Implemented testing, debugging, and version-control workflows.
- Worked with cross-functional teams to deliver production-quality software.

Full Stack Developer

Instil Software

📅 03/2017 - 11/2018 📍 Belfast, US

- Developed and maintained scalable full-stack web applications using modern frontend and backend technologies, designing responsive user interfaces, building RESTful APIs, and optimizing database performance for reliable production systems.
- Implemented end-to-end software solutions by integrating cloud services, authentication systems, third-party APIs, and automated testing workflows while collaborating with cross-functional teams to deliver high-quality, user-focused applications.

EDUCATION

Bachelor of Science: Computer Science

The Hong Kong University of Science And Technology

📅 2012 - 2016

Master of Science: Computer Science

The Hong Kong University of Science And Technology

📅 2016 - 2017

SKILLS

Programming Languages

Python JavaScript C++ C#

MongoDB Java

Artificial Intelligence & Machine Learning

Machine Learning Deep Learning

Agentic AI Computer Vision

Generative AI Large Language Models

Software Engineering

Full Stack Development Restful API

AI Frameworks & Libraries

PyTorch TensorFlow Keras

OpenCV YOLO scikit-learn

Cloud

AWS Azure

STRENGTHS

-  **Machine Learning Expertise**
Proven ability to develop efficient machine learning models.
-  **Software Development Prowess**
Skilled in creating scalable AI-powered applications and software.
-  **Collaborative Team Player**
Strong ability to collaborate with cross-functional teams.
-  **AI Deployment Efficiency**
Proficient in deploying AI models to production environments.
-  **Software development expertise**
Extensive experience in developing scalable software solutions.
-  **Machine learning proficiency**
Skilled in designing and deploying machine learning models.

STRENGTHS

- 

AI problem-solving passion
Passionate about creating reliable AI products for real-world problems.
- 

Programming language fluency
Experienced in programming using Python, JavaScript, C++, and more.
- 

AI Systems Expertise
Expert in designing and deploying AI systems.
- 

Model Optimization Skills
Skilled in optimizing model performance through feature engineering.
- 

Programming Proficiency
Proficient in Python and deep learning frameworks.
- 

Scalable Applications Development
Experience with building scalable AI applications.
- 

Machine Learning Deployment
Experience in deploying machine learning models.
- 

AI Applications Building
Skilled in building AI-powered applications.
- 

Cross-Functional Collaboration
Experience collaborating in cross-functional teams.
- 

Reliable AI Solutions
Passionate about creating reliable AI solutions.
